MAGAZINE

"High-powered aromatics sing from the glass in a soprano voice. Basil, chervil, dill, and lime converge as grassy notes meld with gooseberry. Salted minerality creates a sleek texture."

**VINIFICATION & MATURATION:** Grapes were harvested from select vineyards that benefit from the cool maritime climate, ensuring high acidity and intense flavor profiles. After harvesting, the grapes were quickly transported to the winery and gently pressed to extract the juice while minimizing skin contact, preserving the varietal's characteristic zesty and fresh flavors. Fermentation was carried out in stainless steel tanks at low temperatures to retain the delicate floral and fruity aromas, such as passion fruit, gooseberry, and citrus notes. This method also helps to maintain the wine's crispness and sharpness. To enhance complexity and add depth, some batches underwent a brief period of lees aging, with occasional stirring to enrich the texture and mouthfeel.

**WINE NOTES:** The 2024 Sauvignon Blanc from New Zealand is a vibrant and refreshing expression of this beloved varietal, showcasing the distinctive characteristics that have made New Zealand famous for Sauvignon Blanc. It presents a pale straw color with hints of green, reflecting its youthful freshness. On the nose, this wine bursts with intense aromas of passion fruit, lime, and gooseberry, complemented by herbal undertones of freshly cut grass and a subtle minerality that adds complexity. The palate is crisp and lively, with a zesty acidity that carries the bright citrus and tropical fruit flavors through to a clean, invigorating finish. Notes of kiwi and a hint of green bell pepper add layers of flavor, making this wine both complex and highly enjoyable.
